ROTARY CLUB OF BEAUMARIS WEEKLY BULLETIN Number 21, 21 November 2016

Presidents Report

No meeting to report on last week as we were all too busy parking cars and scanning tickets at the World Cup of Golf. Many thanks to all those members and partners who participated. Special thanks to James Glenwright for coordinating the effort and to Megan Glenwright for doing the coffee runs on the days she wasn't working herself. The days were often long and tedious but they gave us the opportunity to have lengthy conversations with fellow members and partners – no bad thing. And the event debriefing at Vincent's on Sunday night was a lot of fun. Though the numbers are not yet finalized the estimated return for our efforts is around \$6,000.

Last Friday our Peace Scholar Rebeccah Bartlett, ably introduced by Bob McArthur, gave a presentation to the District 9810 Presidents' Meeting on her mAdapt project. This is a project to develop a mobile phone application to support mothers and children, who may be displaced from their home environment, with relevant health care information. The initial target groups are Syrian and other refugees in Europe. Rebeccah is hoping to get support from clubs in our district and possibly seek district and global grants.

Also at the Presidents' Meeting was a presentation on a Membership Night run by the Knox Cluster. Through combining the efforts of all the clubs in the cluster almost 150 people turned up at a Rotary information evening from which several membership leads were identified. The Knox Cluster is very keen to share the lessons learnt with other clusters.

Our club made two significant donations in the last week. These were:
\$1,000 to Disaster Aid to support emergency relief efforts around the world;
\$1,000 directly to the New Zealand Rotary Earthquake Emergency Relief Fund in support of relief efforts following the earthquake in the South Island.

Our meeting on Thursday takes the form of a Barbecue at the Beaumaris Life Saving Club. There will not be a guest speaker but there will be some time for directors' reports. Hopefully the weather will be kind enough for us to take full advantage of the location and wear some summer gear. Volunteers may even be called upon to participate in a round or two of "pick up sticks"!

Yours in Rotary
Malcolm

National RAWCS NZ Earthquake Appeal

RAWCS has set up a National RAWCS NZ Earthquake Appeal. The advantage of this process is to allow Rotarians and friends to obtain a tax-deductible gift receipt, and to ensure all donors only need to donate into the one account. The Project partner is the NZ RAWCS equivalent Rotary New Zealand World Community Service (RNZWCS) and we will regularly release funds into their account set up to support the NZ Earthquake needs as required.

This will save you being involved in currency exchanges when donating via RNZWCS.

Please see the attached 'How to donate' document on page 8

If you wish to donate please go to;

Donors can make donations to RAWCS by selecting:

- **Credit card** – they will fill out their details, click the button “PAY NOW”, and they will receive their receipt by return email within a minute of the donation being made.
- **Direct Credit** – they will fill out their details, click the button “NEXT” and they will be sent an email within minutes containing the RAWCS bank details and a payment reference number. The donor then has to either:
 - 1 Go to their personal banking website and make an online payment to the RAWCS account, identifying the deposit with the reference number given in the email.
 - 2 Take a cheque to any Commonwealth Bank and deposit it into the RAWCS Bank account and identify the deposit with the reference number given in the email.

A receipt will be sent by email to the donors email address once the cheque has been cleared into the RAWCS bank account.
- **Cheque (by mail)** - they will fill out their details, click the button “NEXT” and will be sent an email within minutes containing the RAWCS mailing address and a payment reference number. The donor writes the reference number on the back of the cheque and mails it to the address given in the email.
A receipt will be sent by email to the donors email address once the cheque has been cleared into the RAWCS bank account.

Donors can also choose to make recurring donations - (Fortnightly, monthly, quarterly, biannually, annually) by any of the means above.

Selecting any of these options will cause a reminder email will be sent to you periodically (depending on the donation frequency you select). This email will contain the following options:

- Proceed with donation - deduct a further donation now
- Skip next donation, then continue with schedule
- Cancel all future scheduled donations

If you do not select any of the options within five days of the email being sent, then the 'Proceed with donation' option will be selected for you.

At the request of the National Treasurer all RAWCS projects are now requested to put ALL donations requiring tax deductibility through our online donation facility. Any communication with your Regional Treasurer should also include an email copy to Belinda Griffen – National Administrator (belinda.griffen@rawcs.org.au) - (02) 8833-8317. She is responsible for receipting all deposits received by mail and direct deposit.

To expend funds from the project account, the RAWCS Project Manager must make a written request to the National Administrator – Belinda Griffen belinda.griffen@rawcs.org.au including all details of the overseas bank account and the beneficiary's name and address to transfer funds from the RAWCS account to the project.

RAWCS has a very favourable foreign exchange arrangement with the Commonwealth Bank and we advise you to get us to send any funds overseas as we are confident that your project will benefit from our transfer compared to any other foreign exchange facility.

MILKY SKIES

The sky above Arch Rock in Joshua Tree National Park glitters with the full glory of the Milky Way. To create this image, Your Shot photographer Dana McMullen combined two different exposures with different focal points. However, it wasn't just technical skill that made this image so stunning. "I was fortunate to have a crescent moon hanging low in the sky, which gave me the benefit of lighting the rock," McMullen writes.
