

## Presidents Report

This year has really flown by. As I write this there are just 25 sleeps until we induct Heather Chisholm as the 34<sup>th</sup> President of the Rotary Club of Beaumaris. Heather will be our third Lady President, following on from Kerry Geard in 2002 and Trish Smyth in 2015. Arrangements for our changeover night are now well in hand. The menu has been chosen and Heather has sent out the invitations. Please remember that payment is required in advance as we will not be collecting cash on the night. It is also a help if you can RSVP as soon as possible as this allows us to confirm the room layout and seating plans with VGC.

On Thursday Heather outlined her plans for the coming year and gave us an insight into the projects that we will be supporting in 2018/2019. A reminder that you can see how the club is spending our funds and how much we have in the various accounts by looking at the board papers in the password protected section of the member's page on the club website. The monthly board papers include a set of year to date accounts as well as board minutes and reports from various board members.

We have a big weekend ahead of us. We have the Farmers Market on Saturday morning and the Chelsea Art Show run by the Rotary Club of Chelsea. The art show runs over the long weekend and is the Peninsula's biggest art show with 500+ entries. This year the show will include a number of works from our Art of Kakadu collection, sales of which will benefit Trachoma 2020. Now in its 43<sup>rd</sup> year, the show provides a showcase for artistic talent and is a major fundraiser for local charities. The VIP opening night is on Friday 8<sup>th</sup> June, at 7:30pm which costs \$25. The show is open from 10.00am on Saturday, Sunday and Monday, closing at 5.00pm on Saturday and Sunday and 2.00pm on Monday. We will have a team at the show to sell the Kakadu Artwork. Ordinary entry to the show is \$5.

### Incoming RI President

Rotary International President-elect Barry Rassin laid out his vision for the future of the organization ..., calling on leaders to work for a sustainable future and to inspire Rotarians and the community at large.

Rassin, a member of the Rotary Club of East Nassau, New Providence, Bahamas, unveiled the 2018-19 presidential theme, Be the Inspiration, to incoming district governors at Rotary's International Assembly in San Diego, California, USA. "I want you to inspire in your clubs, your Rotarians, that desire for something greater. The drive to do more, to be more, to create something that will live beyond each of us."

Rassin stressed the power of Rotary's new vision statement, "Together, we see a world where people unite and take action to create lasting change — across the globe, in our communities, and in ourselves." This describes the Rotary that leaders must help build, he said.

To achieve this vision, the president-elect said, Rotarians must take care of the organization: "We are a membership organization first. And if we want to be able to serve, if we want to succeed in our goals — we have to take care of our members first."

Rassin asked the incoming district governors to "inspire the club presidents, and the Rotarians in your districts, to want to change. To want to do more. To want to reach their own potential. It's your job to motivate them — and help them find their own way forward."

Progress on polio

Rassin noted that one source of inspiration has been Rotary's work to eradicate polio. He described the incredible progress made over the

past three decades. In 1988, an estimated 350,000 people were paralyzed by the wild poliovirus; just 20 cases were reported in 2017 as of 27 December. "We are at an incredibly exciting time for polio eradication," he said, "a point at which each new case of polio could very well be the last."

Sustaining the environment

Rotary has focused heavily on sustainability in its humanitarian work in recent years. Now, Rassin said, Rotarians must acknowledge some hard realities about pollution, environmental degradation, and climate change. He noted that 80 percent of his own country is within one meter of sea level. With sea levels projected to rise two meters by 2100, he said, "my country is going to be gone in 50 years, along with most of the islands in the Caribbean and coastal cities and low-lying areas all over the world."

Rassin urged leaders to look at all of Rotary's service as part of a larger global system. He said that this means the incoming district governors must be an inspiration not only to clubs, but also to their communities. "We want the good we do to last. We want to make the world a better place. Not just here, not just for us, but everywhere, for everyone, for generations."

**# The Highlands Foundation** is a not-for-profit organisation that has been providing equipment and training for hospitals and health care centres in the Highlands of Papua New Guinea since 2004. The Highlands Foundation was established by a number of Australian health care professionals in response to the poorly resourced health systems in PNG. The focus has been to develop partnerships with major hospitals in five provinces and utilise their local knowledge of the health care needs of their regions and then provide support in the form of necessary supplies and up to date education for health staff. Our main regions of aid so far have been to the Eastern Highlands, Western Highlands, Southern Highlands, The Sepik and Central Province.
